ASSOCIATE LECTURER– WORK INTEGRATED LEARNING  
FACULTY OF HEALTH SCIENCES  
REFERENCE NO. 2236/1014

• Continuing part-time (0.4FTE) position in Work Integrated Learning – Diagnostic Radiography  
• Contribute to the improvement in quality education for our future health professionals  
• Remuneration package: pro-rata $77K-$105Kp.a including base salary, leave loading and up to 17% super

The Faculty of Health Sciences is the largest health science faculty in Australia and is internationally recognised for quality and innovation in teaching and research. Our clinical education and fieldwork unit currently consists of clinical educators and administrators within the various disciplines. The faculty is improving some of its practices in work integrated education in both the professional preparation programs and the non-clinical programs offered at undergraduate and postgraduate level. With an increased focus on improving quality, we have integrated clinical education and work placement more seamlessly into the overall curriculum, increasing the number and types of clinical and preclinical experiences, and developing richer partnerships with a range of health providers.

We are seeking to appoint dedicated, enthusiastic professionals to the role of Associate Lecturer in Work Integrated Learning and / or Clinical Education.

In this role you will:

• contribute to the review and design of new clinical and work placement units in allied health disciplines and teach in clinical units as appropriate
• develop materials for use by students, clinical educators and work placement supervisors in placement sites
• provide assistance to ‘at risk’ students in clinical and work placement units, including site visits where required; provide advice and assistance to supervisors working with these students
• design and implement remediation plans for students who fail or are ‘at risk’
• support the provision of professional development and support for clinicians and other health professionals
• undertake research in areas related to health education / work integrated learning under the mentorship of more senior academics.

To succeed in this role you will have:

• qualifications in diagnostic radiography and an understanding of the allied health clinical environment
• a demonstrated commitment to pursuing a research higher degree relevant to allied health clinical education or work integrated learning in health
• demonstrated experience in allied health clinical education or work integrated learning as appropriate
• an understanding of the current health system within Australia
• a demonstrated understanding of and commitment to an active approach to student centred learning
• experience in the integration of clinical and professional learning into allied health curriculum
• previous experience with the use of innovative teaching technologies such as e-learning
• excellent communication and negotiation skills with an ability to work well in interdisciplinary teams.

All applications must be submitted via the University of Sydney careers website. Visit sydney.edu.au/recruitment and search by the reference number for more information and to apply.

CLOSING DATE: 10 December 2014

The University is an equal opportunity employer committed to equity, diversity and social inclusion. Applications from equity target groups, including women and people with disabilities are encouraged. As the University of Sydney has established a scheme to increase the number of Aboriginal and Torres Strait Islander staff employed across the institution, applications from people of Aboriginal and Torres Strait Islander descent are also encouraged.
